

Register to learn about TAC Farm Lab's Beginning Farmer Training Program.

Virtual Open House session July 27th at 6:30 PM

TAC is presenting information on their Beginning Farmer Training Program in Allensworth. Participants will hear from APA and TAC staff on the climate crisis and regenerative farming, grow non-chemical foods and support a local system for rural communities. Follow your passion in food and environmental justice and take the first steps by registering to learn how Regenerative Agriculture farmers work with nature to feed people and animals.

Registration information coming soon
